

Презентация

- Т.: - I can tell you a few words about my yesterday's experience of watching TV. I tried to write a poem about it but at the end I had the following text. (The teacher reads the model text to the class)

There was an action film.

There were cartoons.

There was a documentary.

There were comedies.

But there wasn't anything good to watch.

And there weren't any interesting programmes on TV.
