

Первое знакомство...

The screenshot shows the Drupal 6 installation interface. At the top is a blue header with the Drupal logo and the text "drupal-6". Below the header, on the left, is a "User login" section with fields for "Username:" and "Password:", a "Log in" button, and links for "Create new account" and "Request new password". On the right, a large light blue box contains a "Welcome to your new Drupal website!" message. It instructs the user to follow four steps: 1. Configure your website, 2. Enable additional functionality, 3. Customize your website design, and 4. Start posting content. Each step includes a brief description of what to do next. At the bottom of the welcome box is a small Drupal logo.

Welcome to your new Drupal website!

Please follow these steps to set up and start using your website:

- 1. Configure your website**
Once logged in, visit the [administration section](#), where you can [customize](#) and [configure](#) all aspects of your website.
- 2. Enable additional functionality**
Next, visit the [module list](#) and enable features which suit your specific needs. You can find additional modules in the [Drupal modules download section](#).
- 3. Customize your website design**
To change the "look and feel" of your website, visit the [themes section](#). You may choose from one of the included themes or download additional themes from the [Drupal themes download section](#).
- 4. Start posting content**
Finally, you can [create content](#) for your website. This message will disappear once you have promoted a post to the front page.

For more information, please refer to the [help section](#), or the online [Drupal handbooks](#). You may also post at the [Drupal forum](#), or view the wide range of [other support options](#) available.
