

Internship Program

- ✓ The success of your internship program hinges on the shared value it creates for the business, the interns, and the community.
- ✓ A good internship program will ensure the assignment of a wide variety of challenging programs and tasks.
- ✓ Interns should be recruited in broadly the same way as regular employees to ensure the business value from the program.
- ✓ Effective supervision and mentorship is the pillar of your internship program.
- ✓ Effective off-boarding begins with effective supervision during the second half of the internship.
